

Experience becomes memory. Memory informs action.

One logical memory per authenticated user, shared by that user's agents.

01 DURING THE CONVERSATION

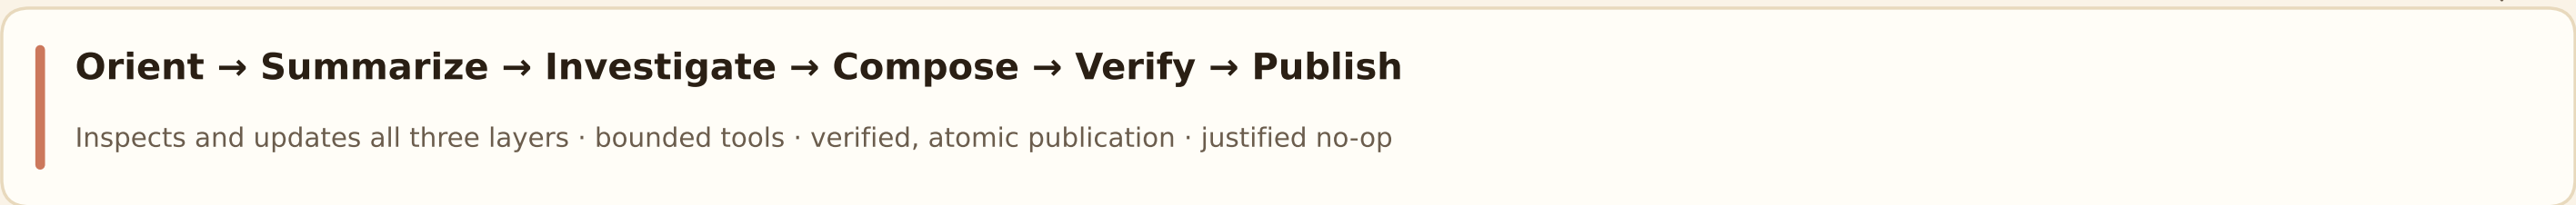

02 DURABLE MEMORY

Notes and wiki claims cite source events; subject links provide context.

03 BACKGROUND MAINTENANCE · DREAM WORKER

PostgreSQL

Events · jobs · revision coordination

Interchangeable blob storage

Uploaded sources and artifacts

Configured models

Independent generation + embeddings

Capture is separate from MCP retrieval. Dashed arrows: background maintenance. Local files pin one revision.
